EXECUTIVE COMMITTEE

DR. CHARLES F. DIGHT, PRESIDENT
DR. GEORGE G. EITEL, VICE PRESIDENT
W. A. LAIDLAW, 2ND VICE PRES.
DR. WALTER E. LIST, SECRETARY
C. A. QUIST, TREASURER

OAK GROVE AT W. 15TH STREET Wesley Temple
(405 N. W. NATIONAL LIFE BUILDING)

MINNEAPOLIS, MINNESOTA

August 1-1933.

Chancellor Adolf Hitler,
Berlin, Germany.
Honorable Chancellor;

I inclose a clipping from the Minneapolis Journal of Minnesota, United States of America, relating to, and praising your plan to stamp out mental inferiority among the German people.

I trust you will accept my sincere wish that your effort along that line will be a great success and will advance the eugenics movement in other nations as well as in Germany.

Sincerely,
C. F. Dight, M.D.
President Minnesota Eugenics Society.

C. F. Dight

LOOKING TO HITLER

To the Editor of The Journal 7-28/33

The report persistently comes from Berlin that congenital feeble-mindedness, insanity, epilepsy, and some other serious conditions that are inheritable are to be stamped out among the German people. Adolf Hitler is having broad and scientific plans formed for this. If carried out effectively, it will make him the leader in the greatest national movement for human betterment the world has ever seen. The world's two great needs are co-operation in industry for social good and biological race betterment through eugenics.

—C. F. Dight.

Minneapolis.

The purpose of this society is to spread abroad knowledge of the laws of heredity and the principles of eugenics in order to promote RACE BETTERMENT, and to secure the passage and enforcement of eugenic laws to that end.
